

Canadian Parliamentary Hearings and Think Tank Publications

Project Title	Canadian Parliamentary Hearings and Think Tank Publications
Project Summary	Create summaries of Canadian parliamentary hearings and think tank articles.
Country	Canada
Country/Region of Focus	Canada

Project Description

Canada's Parliament and Senate conduct hearings of significant interest to U.S. policymakers, while Canadian think tanks produce considerable content of interest to bilateral relations. Embassy officials are not always able, however, to attend these hearings, nor are we able to review all think tank articles. Many of these, however are broadcast live or stored online. Embassy Ottawa seeks four individuals to monitor parliamentary and senate committees, as well as think tanks, to watch hearings or events in real time or later and produce summaries of the articles and events.
